

Pixy / Foxy Remote Head

The easy “plug and play” remote head system in professional quality!

The patent-pending design of the Pixy/Foxy remote head system allows you to choose your individual set up. No matter if you need just one axis, two (pan/tilt) or three (roll).

All screws are made out of stainless steel and have the same dimensions. Therefore, the complete aluminium head can be assembled with just a single Allen key.

Pixy Head (TR10)

The Pixy Head weighs 2kg (4lbs) and carries cameras up to 6kg (14lbs). The Foxy Head weighs 5kg (11lbs) and has a payload of 15kg (35lbs).

The complete system is water proofed (IP65).

Complete TR10 system (55x42x20cm/21x16x8")

Complete TR20 system (74x60x27cm/29x23x10")

The aluminium housing for battery, control- and servo box is waterproof and measures 8x6x17cm.

The lightweight servo box (1kg) uses signal processor technology for optimal motor control.

The playfree joystick has an adjustable speed profile.

All boxes are power connected by waterproof XLR4 plugs.

Smooth operating of the lense-integrated Fujinon & Canon ENG motors with zoom & focus dial buttons.

Waterproofed 12V-3Ah NiMH battery.

Any other battery 10-15V (e.g. camera- or car battery) can serve as power source.

1 system - 2 heads!

All cables, the battery, control- & servo box can be used with the TR10 or TR20 head.
